

WEYERMANN® Nr. 4 Crazy Coriander

Beer description

This Weyermann® specialty is based on a recipe of the famous Belgian Witbier. It is a descendant from those medieval beers which were flavoured and preserved with a blend of spices and other plants such as coriander seeds and orange peel - just like our Crazy Coriander. These ingredients together with the wheat malt give this special beer the refreshing character, making it perfect for the hot summerdays. The flavour is wheat malts, fruity, citrus and spicy, coriander and orange peel. The light bodied Witbier has a dry spicy finish. It fits perfectly with ice-cream, especially lemon sorbet.

Beer style

Wit Beer is top-fermented, light yellow with white, firm and long-lasting head. These beers are spiced with coriander, orange peel and other ingredients. Grassy, green aromas are common. Aromas of banana and pineapple are recognizable. Hop aroma can be slightly noticeable.
