

WEYERMANN® Bamberger Hofbräu® Rotbier

WEYERMANN® SPECIALTY MALTS

Beer description

Our Franconian style amber lager shines in a brilliant shade of copper red and is crowned by a fine, white head. The aroma ranges from the typical notes of our Barke® Pilsner malt to notes of toffee and soft honey as well as the slight scent of red berries and apricots. The first impression on the palate brings forth the malty, aromatic character of the beer. The interplay of our specialty malts and the lager's mild hoppiness lends our "Rotbier" its high drinkability. Flavors of red fruits and prunes in the finish make this Franconian "Brotzeit" with cut meats and cheese as well as with savory grilled dishes.

Beer style

Lager or Red beers are bottom-fermented, crystal clear, range in color from reddish to dark amber, with white head. They have a typical malt character with caramel, honey and berry notes. This beer style is characterized by bread-like and spicy aromas. The intensity of the hop aroma varies from low to strongly noticeable.
