

WEYERMANN® Bamberger Hofbräu® Schwarzbier

Beer description

The use of selected Weyermann® specialty malts lends our Schwarzbier its very dark color and its nicely balanced character of roasted malts. The creamy head and the aroma of roasted coffee, dark chocolate and red berries make you want to take your first sip. The well-rounded carbonation gives the beer its high drinkability and lets you enjoy the variety of caramel, toffee, and roasted flavors. The mild finish of our Schwarzbier will make you crave another sip. Enjoy this beer with hearty Franconian snacks (Brotzeit) or strongly spiced dishes such as rack of lamb or venison. It also goes well with chocolate-based desserts.

Beer style

Black Beers are bottom-fermented, range in color from dark red to dark brown or almost black. They have stable head, which is beige colored or light brown. Sweet roasted aromas, caramel and coffee scents characterize the bouquet. The hop aroma manifests in scents of pine and liquorice. The bitterness from the hops is weak to moderate, while the aftertaste may be dominated by a bitter sweet, toasted flavor
