

WEYERMANN® CARAFOAM®

Made from the finest German quality brewing barley. Due to our special malting process, this malt is characterized by a high proportion of dextrans and high molecular weight proteins. This makes CARAFOAM® ideal for improving foam and its stability as well as adding body to any beer. Due to the light malt color, CARAFOAM® can be used universally from the brightest to darkest beer styles.

Sensory: malty-sweet with light caramel notes

Caramel malt to improve the foam stability and body of all beer styles, especially for:
